PETROLEUM SCIENCE & ENGINEERING

Contents Volume 12 (1994, 1995)

Research papers

Adsorption VI. Nonequilibrium adsorption of ethoxylated sulfonate onto reservoir cores in the presence of xanthan
T. Austad, I. Fjelde and K. Veggeland 1

Acrylamide copolymers: A review of methods for the determination of concentration and degree of hydrolysis
K.C. Taylor and H.A. Nasr-El-Din 9

Comparison of optimization techniques for automatic history matching
G.B. Savioli and M. Susana Bidner 25

Bi-linear models for simultaneous estimation of a formation pressure and lithological characteristics in interbedded sands and shales
S. Katz, G.V. Chilingar, F. Aminzadeh, A. Gurevich and L. Khilyuk 37

The electric and hydraulic anisotropic behavior of the Jeanne d'Arc basin reservoirs
H.S. Salem 49

Origin of the formation fluid pressure distribution and ways of improving pressure prediction methods
A.E. Gurevich, G.V. Chilingar and F. Aminzadeh 67

Announcement 79

Research papers

Pitfalls in estimating the fractal dimension of reservoir property data
T.A. Gray, C.Y. Chork and I.J. Taggart 81

Borehole rupture from plastic yield to hydraulic fracture — A nonlinear model including elastoplasticity
Y. Wang, J. Don Scott and M.B. Dusseault 97

Mechanistic study of the selective action of oil and water penetrating into a gel emplaced in a porous medium
R.A. Dawe and Y. Zhang 113

Sour natural gas and liquid equation of state
M. Mohsen-Nia, H. Moddaress and G. Ali Mansoori 127

Numerical criterion and sensitivity analysis for time-dependent formation pressure in a sealed layer
L. Khilyuk, S. Katz, G.V. Chilingarian, F. Aminzadeh and A. Gurevich 137

New methods to detect tar mats in petroleum reservoirs
A. Wilhelms, B. Carpentier and A.Y. Huc 147

Borehole acoustics applied to kick detection
J.I. Hage and D. Ter Avest 157

Book reviews

Physical Properties of Hydrocarbons and Chemicals, Vols. 1,2,3, compiled by R.W. Callant and G.L. Yaws
G.V. Chilingarian 167

Geological Log Analysis Using Computer Methods, J.H. Doveton
A.E. Gurevich and G.V. Chilingarian 168

Announcement 169

Research papers

Analysis of pressure and pressure derivative without type-curve matching — Skin and wellbore storage
D. Tiab 171

0920-4105/95/$09.50 © 1995 Elsevier Science B.V. All rights reserved
SSDI 0920-4105(94)9999-Z

Two-phase calculations and comparative flow experiments through heterogeneous orthogonal stratified systems
S. Laribi, H. Bertin and M. Quintard 183
Predictions of three-phase regions in CO_2–oil mixtures
J.A.P. Coutinho, M. Jørgensen and E.H. Stenby 201
Buckling of tubular strings in curved wells
Å. Kyllingstad 209
Laboratory simulation of geochemical changes of heavy crude oils during thermal oil recovery
H. Pahlavan and I. Rafiqul 219
Use of in situ saturation data in estimation of two-phase flow functions in porous media
G.M. Mejia, K.K. Mohanty and A.T. Watson 233
A correlation of diffusion coefficient at infinite dilution based on dense fluid theory
L.-S. Wang and Z.-X. Lang 247

Announcements 255

Research papers
Evaluation of fracture treatments using a layered reservoir description: field examples
Z. Rahim, S.A. Holditch, M.D. Zuber and D. Buehring 257
Determination of transient drainage across lease boundaries
E.S. Carlson and P.W. Johnson 269
The effect of a distributed block length function on double porosity transitions during linear flow
T.A. Jelmert 277
Influences of pore geometry, porosity and permeability on initial water saturation — An empirical method for estimating initial water saturation by image analysis
S.B. Coskun and N.C. Wardlaw 295
Response of low-permeability, illitic sandstone to drilling and completion fluids
S.S. Rahman, M.M. Rahman and F.A. Khan 309
Study of pore structure modification using Environmental Scanning Electron Microscopy
L. Ali and M.A. Barrufet 323

Announcements 339
